

PRODUCT: DR.JILL ADVANCED ANTI-MELASMA CREAM

This product has been formulated using the ingredients commonly used in cosmetics. It has been considered under the general toxicological profile of the ingredients including their levels of exposure. The overall evaluation shows that this product has no negative impact to human health when applied under normal or reasonably foreseeable conditions of use. In addition, there is no prohibited use of these ingredients in pregnant and breastfeeding women. However, the skin sensitivity is an individual feature. Allergic reactions may occur in the hypersensitive person.
